### Notice of Termination and Replacement – Statewide Utility License Agreement

Dear Mayor Nielson,

The Department has on file a Statewide Utility License Agreement with Leamington Town dated June 2, 2008. The Department is updating and replacing all license agreements more than 5 years old to bring them into conformance with current rules and form. This letter is UDOT's 30-day written Notice of Termination, as required by paragraph 23 of the agreement. This old agreement will be terminated on March 11, 2016.

As stated in paragraph 23 of the above agreement, this Notice of Termination does not affect any permits issued and approved under the terms of the agreement.

Attached is a copy of the above agreement, and a replacement agreement. Utah Administrative Code R930-7-6 requires the Town to execute a Statewide Utility License Agreement before any encroachment permits are issued. Please review the Town's information on the replacement agreement for accuracy and completeness and notify me of any corrections within 10 business days. Upon receipt of any needed corrections, my office will prepare and send you a replacement agreement for signatures. The replacement agreement needs to be signed by March 11, 2016.

The replacement Statewide Utility License Agreement is a standard form approved by the Attorney General's Office and used for all utility owners who desire to use the Department's right-of-way.

If you have any questions or concerns please contact me.

Sincerely,

A handwritten signature in cursive script that reads "Richard Manser".

Richard Manser, P.E.  
Statewide Utilities Engineer
